Wed Nov 01 2023 00:00:00 GMT+0000 (Coordinated Universal Time) — Sun Jun 01 2025 00:00

Development and evolution of a PrestaShop e-commerce platform: custom module implementation, back-office optimization (automation, bug fixes…

• Complete conversion-driven product page redesign

02 / SUMMARY

PROFILE

My guiding principle is simple: delivering useful software is not enough; it also needs to remain understandable and adaptable. I focus on clarifying the need, breaking problems down, making technical decisions explicit and writing code a team can review, test and evolve. My experience spans different challenges: checkout experience and conversion in e-commerce, data centralisation in business…

03 / STACK

TECHNICAL SKILLS

Proficient
Java · Spring Boot · Angular · TypeScript · PHP / Symfony · React · MySQL

Practised
Next.js · Docker · Redis · Microsoft SQL Server · PostgreSQL · Git / GitLab CI…

Learning
